News Update

The Planning Application, registered on 15th June, has now completed both its public consultation phase and the submission of comments by Statutory Consultees. We hope for a decision in mid- to late-August.

[You can see the more detailed Planning Application on the West Dorset District Council website (www.dorsetforyou.com): click on 'Planning application search' under 'Popular links', then click on the West Dorset link and enter '1/D/09/000960' in the Application Number box.]

The funding bid to 'Sea Change', described in 'News Update 15.06.09' (see Recent Articles) was submitted on time at the end of June, with all the required and optional information included. We shall not hear about the decision on the bid, which is up against intense national competition for limited funds, until the end of September at the earliest.
